

# CB-1000.S

The CB-1000.S is an inline cutting and extraction system for up to four matrix machines.  
Collection device of the cut and extracted materials is a 400 mm wide screw compactor.

## Single parts:

- 🌀 Inline cutter(s) or cutter module(s)
- 🌀 Transportation fan (power frequency controlled)
- 🌀 Piping silencer
- 🌀 Electrical control cabinet incl. frequency converter
- 🌀 Material separator according application
- 🌀 Filter plates with filter class G4
- 🌀 Oil spray system
- 🌀 Anti sticking coating
- 🌀 Pipe system

## Options:

- 🌀 Anti static system
- 🌀 Endless bag for screw compactor
- 🌀 Professional dust filter system
- 🌀 Air return system
- 🌀 Sound control housing for the fan

## System principle:
